Mr. McLean's Pamplin 7th grade 4-H Club met October 12.

We went to the Bank of Appomattox on a tour. Mr. Burk, the President, showed us what happened when a check was received at the bank. We saw machines that were used in keeping the checks organized. We saw a very interesting machine used to take pictures of the checks.

A particular interesting object was the vault. It was set at a certain time each night and could not be opened until the next morning.

We all had the opportunity to see and hold a check for over $4,000.

## Volunteers Praised In X-Ray Surveys

The official number of free chest x-rays taken during the recent x-ray surveys sponsored by the Southside Tuberculosis Association and Health Departments in Buckingham and Appomattox Counties totaled 3,589. In Buckingham County 1,225 were x-rayed and in Appomattox County 1,775 citizens were x-rayed. Dr. Francis J. Clements, Health Director of both counties announced.

The x-ray program was endorsed by the Home Demonstration Clubs, the Appomattox Junior Woman's Club, County Improvement Leagues of Buckingham and other civic groups within the counties. The project was aided by the ministers, school groups, food handlers (restaurants) and excellent cooperation from the industries of the county, according to Mrs. Emma G. Anthony, Executive Director, Southside Tuberculosis Association, Farmville, Virginia.

"The thanks of the whole community are due to the hundreds of volunteers who generously gave their time and hard work to making outstanding success in the Buckingham and Appomattox Campaigns to find the unknown cases of tuberculosis in their area. The chest x-ray survey program is one of the finest examples of public spirited cooperation we have ever seen", Mrs. Anthony and Dr. Clements stated.

A big job of "Follow Up Work" remains to be done by the health director, public health nurses and county doctors before a report on the findings of these surveys can be made.

Mrs. Anthony also expressed appreciation to the local newspapers and radio stations for their excellent coverage of these surveys. She stated it is a pleasure to work with people who are as much aware of their TB problem and so anxious to help do something about it.

The first European to see a tulip was Augerius Gulemian Busbequis, who was traveling as ambassador of Emperor Frederick I of Austria to Suliemian the Magnificant, Turkist Sultan. However, Holland became the capital of the tulip business, and is so today. I have just purchased many additional tulip bulbs.

There was the city smartie who was visiting in the country. He was scouting around the place, and come upon an empty milk bottle behind the barn. He came charging in to report, "Oh boy, I have found a cow's nest."

Now that Congress has gone home and the rain has stopped in San Francisco, maybe we can get the world series over; I make no bones about being a Yankee fan. "If you can't beat'em, join'em." (This was written before the final game.")
